Introduction

The Mujahedin-e-Khalq organization known as MEK, MKO, PMOI, NCRI, NLA, etc. is a terrorist organization founded more than half a century ago based on a mixture of Marxism and Islamic Jihadism ideology to fight the Iranian Shah's prowest regime and «Imperialism». It started its operations by hijacking an Emirati airplane, assassinating six American advisers, bombing the American Information Office in Tehran, Bombing the British embassy, etc. Which caused the US government to enlist MEK as a Foreign Terrorist Organization in 1997. The MEK fled to Iraq after the Iranian revolution and became part of Saddam Hussain's army. They assassinated more than 12,000 Iranian civilians through suicide bombing, gun shooting, deflagrating , etc. and also assassinated several Iraqi Kurds on Saddam's behalf. After Saddam's regime was overthrown in 2003 by the allied forces, MEK was forced to surrender its weapons.

MEK and many of its aliases were already enlisted into the EU and US list of terrorist groups at the time. As they were surrounded by foreign forces they halted their terrorist activities because of their fear of the consequences. MEK used the circumstances and started a campaign claiming that they have renounced violence and should be delisted from the list of terrorist groups. They also had the help of some radical belligerent political influencers in the west along with Saudi money to support their campaign. Their supporters have given freedom to MEK for their future actions. It eventually led to removal of the group from the EU list in 2009 and from the US list in 2012. Now there are few questions flowing into mind which the following pages are going to answer them:

1. Have the MEK leaders ever announced publicly that they have put their weapons down for good? (Maryam Rajavi answered this question in an interview with Euronews in 2012)
2. Are the MEK leaders still arming their members for terrorist actions? (Masoud Rajavi has published messages regarding this matter in 2020 being broadcasted by MEK official TV)
3. Is MEK claiming responsibility for its current terrorist operations? (Some footages from MEK official TV and its official website regarding their terrorist operations which took place in 2021 can clarify this)

Just after being delisted from US Foreign Terrorist Organization's list in 2012:

She didn't deny restarting their Terrorist Activities in Future!

EuroNews Reporter: Regarding the future of this group which has been disarmed whether they will get armed again? She said: You know that Mujahedin had stopped their military acts since **2001** and it depends on the Iran's future and the law, so this is not in the vision **FOR NOW!**

“Moassesan” (meaning founders) literally means establishment and/or foundation; and Moassesan of the Liberation Army applies to those have either established or re-established the Liberation Army. Whenever embarking upon reviving its terrorist activities, the MEK announces its “re-establishment”_AKA Moassesan_ of its army. By re-establishing the Fifth Moassesan on **June 20th 2021, the **MEK** has announced a new spectrum of terrorist activities of the National Liberation Army.**

مسعود رجوی - ۴ خرداد ۱۴۰۰

همچنان که انتظار می‌رفت و مقاومت ایران از قبل اعلام کرده بود
رژیم ولایت فقیه در سراسیم سرنگونی به جانب یگاباگی و انقیاض و سرکوب حداکثر می‌شناهد
جنگ افروزی در غزه آتش تهیهٔ خامنه‌ای در مهندسی انتخابات قلبی بود
خامنه‌ای با حذف «خودی» های خودش، از رو بسته است
این علامت اعلام جنگ آشکار و مضاعف با مردم ایران از سوی دزد بزرگ حاکمیت است
از ۳۰ خرداد ۱۳۶۰ دو قطب بیشتر وجود ندارد:
جبههٔ خلق و مقاومت و آزادی
در برابر ولایت فقیه و جبههٔ ارتجاع و دیکتاتوری و حفظ نظام و رژیم قتل عام
مؤسسان بنجم ارتش آزادیبخش ملی از روز ۳۰ خرداد ۱۴۰۰ را اعلام می‌کنم
حرف فرزندان ایران با خلیفهٔ ارتجاع یک جمله است:

ما زن و مرد جنگیم بجنگ تا بجنگیم
